An Outline of Occult Science Quotes by Rudolf Steiner

Things started to fly over my head so I decided to put it down for a time, but it was refreshing to be so challenged in the subject of reading comprehension.

An Outline of Occult Science Quotes by Rudolf Steiner

According to Steiner, the material is derived from his own direct inspection of the spiritual history itself, the so-called akashic records. Things depicted in this book should be taught in schools and I'm sure they will one day.

Outline of Occult Science

This book covers everything from Theosophy to Atlantis to the Pleiadians. According to Steiner, the material is derived from his own direct inspection of the spiritual history itself, the so-called akash Really difficult to settle on how many stars to give this.

Outline of Occult Science

But these times are still far away. Give up the outdated, ignorant notions! Advanced Students will be pleasantly surprised. You have to be serious to read this one, but it's one of my faves.

Outline of Occult Science

Austrian philosopher, playwright, and artist Rudolf Steiner 1861-1925 is perhaps best known as an educational philosopher and reformer, the founder of Steiner or Waldorf schools located around the world. Less an outline, it is more an apologist piece to rationalists with some evangelism thrown in. I enjoyed this book but I would find it a bit too much to read it a second time.

Outline of Occult Science

For the importance, significance, and originality of the material he presents, it should be a solid 5 stars; but friendly as I am to spacey, way-out-there, New Age material, I found this to be a lot to swallow--particularly the long chapter about the spiritual evolutionary history of humanity and planet Earth.

Outline of Occult Science

Written by the first true Initiate after the age of Science. Though I'll have to re-read this multiple times, it served as an intro to my interest in the occult. His engagement with the occult stems from his work in theosophy and anthroposophy, philosophies invested in reaching and understanding the 'supersensible' world that relies on a cultivation of body, spirit, and soul.

I will finish it, someday. I haven't actually finished this book.
