

# Proceedings of the 2001 International Joint Power Generation Conference - presented at the 2001 International Joint Power Generation Conference : June 4-7, 2001, New Orleans, Louisiana

American Society of Mechanical Engineers - Proceedings of International Joint Conference on Computational Intelligence

Description: -

Gas-turbines -- Congresses.

Nuclear engineering -- Congresses.

Combustion engineering -- Congresses.

Coal-fired power plants -- Congresses.

Electric power-plants -- Fuel -- Congresses.

Electric power production -- Congresses. Proceedings of the 2001 International Joint Power Generation Conference - presented at the 2001 International Joint Power Generation Conference : June 4-7, 2001, New Orleans, Louisiana

-Proceedings of the 2001 International Joint Power Generation Conference - presented at the 2001 International Joint Power Generation Conference : June 4-7, 2001, New Orleans, Louisiana

Notes: Includes bibliographic references and author index.

This edition was published in 2001

There is insufficient evidence regarding the effectiveness of resection of the piriformis muscle as a treatment for piriformis syndrome. In addition, they argue that the ability to provoke pain while the patient is in the aware state and able to communicate during surgery allows the surgeon to better identify and treat the source of the patient's back pain.

**Presentations**

The complication rate of combined interspinous dynamic stabilization and decompression treatment 32. Such sensors are typically classified according to two criteria: the pressure measurement type, and the sensing principle implemented in the sensor. It addresses Space functional areas and their importance based on current and historical NATO operations.

A containing bibliographic information for all publications listed here is also available. A number of uncontrolled studies have suggested positive effects of facet injections on chronic back pain Wagner, 2003. Additionally, when medical necessity criteria are met for an initial or repeat cervical or thoracic interlaminar epidural steroid injections, advanced diagnostic imaging should be performed within 24 months prior to the initial or repeat injection.
