This mark dates from 1880-1921.

## Identifying Marks and Symbols on Ceramic, China and Pottery

Called backstamps, these markings may be found on the bottom of a vase, on the back of a plaque, or on the bottoms of utilitarian items such as bowls, plates, saucers or cups, etc.

## Identifying Marks and Symbols on Ceramic, China and Pottery

Very faint hairline crack, sloppy handpainting. Most of the time they are from the first year that any predecessor company worked until the last

year any successor company worked, provided that the name or management was continuous.

**Collectors Encyclopedia of Nippon Porcelain : Identification and Value by Joan F. Van Patten (2001, Hardcover) for sale online**

This is my first book with this author and look forward to other books. Fake Nippon have a bright white, glossy background and a heavy, chunky feel.

**Collector's Encyclopedia to Nippon Porcelain by Joan Van Patten (1979, Hardcover) for sale online**

Detailed descriptions are provided, and there are helpful glossaries and current value guides. Nippon porcelains have their distinctive mark, based on the year and place they were manufactured, so this book gives you what to look and watch out for, in order to identify the authenticity of the item. Two match and have 2 gilt rings.
