Another section of the volume illustrates the recent changes in the definition of 'corpus' which have come about due to the emergence of new technologies and in particular of the availability of texts on the world wide web. After over twenty years of evolution, corpus linguistics has matured, incorporating nowadays not just small, medium and large primary corpus building but also specialised and multi-dimensional secondary corpus building; not just corpus analysis, but also corpus evaluation; not just an initial application of theory, but self-reflection and a new concern with theory in the light of experience. A typical entry includes: name of repository; parent organization; address, telephone, fax, email and website; number for enquiries; days and hours of opening; access restrictions; acquisitions policy; archives of organization; major collections; non-manuscript material; finding aids; facilities; conservation; publications New to this edition: email and web address; expanded bibliography; consolidated repository and collections index Author : James L.
