History

He primarily uses oil, watercolor, ink and conte.

What's happening in the arts world

Centre of Arts has been established to house his collection of traditional and contemporary art in Orissa. Participants are selected by a panel comprising influential art figures including curators, writers, and artists often who have themselves previously been a part of the New Contemporaries, and a rigorous process that considers the work within a broad cultural context. We will publish some of the best in The Sun and on our website.

New Contemporaries

Since 1949 New Contemporaries has consistently provided a critical platform for new and recent fine art graduates primarily by means of an annual, nationally touring exhibition. Moreover, the increase in the state of tension that generally surrounds us has become today the strongest force, has among the strongest impact, and is a primary motivator for artists to push themselves and encourages them to continue their creative endeavors without stopping.

The Impact of Digital Technology on Art and Artists

I do not want it to be regarded as another show that focuses on the social and the political. The exhibition was relaunched at the ICA in 1989 and toured to four regional centres. Both these innovations have expanded horizons of creativity and opened new artistic frontiers.

History

In the early years the exhibition quickly went from strength to strength, gathering much critical and audience attention.

News

The Negative Risks of the Influence of Technology on Artists: The broad array of options now available to artists through new technologies may sometimes have a dangerously negative effect precisely because they offer the artists means of expression they never imagined were possible.
