We also use historical data from. For example, matching the full name exactly in a Scientific Name search for *Piptochaetium avenacioides* may be difficult, but strings of either *tium aven* or *avenaci* or *mavenac* or *pipto* will all result in very small lists of matches. Proper vouchers display all the necessary attributes for complete identification of the plant, and are to be accompanied by accurate locality, habitat, collection time, and collector data.
