Building America's Hangar: The Design and Construction of the Steven F ...

The center is named for businessman Steven F. The item may be missing the original packaging such as the original box or bag or tags or in the original packaging but not sealed.

National Air & Space Museum Phase 2

The center will ultimately contain 760,000 square feet of space. It went directly from the catapult into the river. McDonnell Space Hangar on April 19, 2012, replacing the atmospheric test vehicle,.

Rare Air: The Udvar

Modern military airplanes are on the north end of the hangar, airliners are on the south end, and aircraft from World War II and earlier are in the center.

National Air and Space Museum and Udvar

Other Smithsonian staff not directly employed by the museum, such as store employees, also work at the Udvar—Hazy Center.

SMITHSONIAN NATIONAL AIR & SPACE MUSEUM

This kind of work, however, can present daunting challenges for those involved. The work commemorates the human journey of flight, echoing the sweeping grandeur of the museum's collection.

Steven F. Udvar

Fifteen years after its initial occupancy, the Udvar-Hazy Center is undergoing a comprehensive restoration of the exterior enclosure systems from roof to grade. The Enola Gay is raised up on an eight-foot platform with a P-38 Lightning under one wing and a P-47 Thunderbolt under the other.
