Children With Emotional And Behavioural Difficulties: Strategies For Assessment And Intervention

Some children, especially those in preschool and primary school, may benefit from referral to a child development centre where such a multidisciplinary team can assist in further assessment of the problem and provide guidelines for early intervention.

Behavior Assessment, Plans, and Positive Supports

Assessment of behavioral disorders in preschool-aged children. For example, we have used token systems consisting of cartoon character tokens e.

Children with Behavioural, Emotional and Social Difficulties

Embedding choice in the context of daily routines: An experimental case study. Students with behavioral or emotional problems are more prone to disruptive classroom behaviors.

Addressing challenging behaviour in children with Down syndrome: The use of applied behaviour analysis for assessment and intervention

Challenging behaviour not only precludes individuals with Down syndrome from learning opportunities within their environment, but also prevents them from accessing more typical educational and community environments as they approach preschool and school age.

Social, emotional and mental health assessments
