World Losing Ice 57 Percent Faster Than In the 1990s, Study Finds

Modern variations in CO₂ and temperatures. But I believe a global reforestation effort can have a gradual climate mitigation impact.

Examining the Viability of Planting Trees to Help Mitigate Climate Change

But plague is not naturally found in Europe.

Arctic Warming is Altering Weather Patterns, Study Shows

Were this to occur in a global warming scenario, it would act to partly counter the effects of projected greenhouse warming in parts of Western Europe.

NASA GISS: NASA News & Feature Releases: Ocean Circulation Shut Down by Melting Glaciers After Last Ice Age

The study attracted worldwide attention, as well as some criticism within the science community. Major new paleoclimatology study shows global warming has upended 6,500 years of cooling: Comprehensive compilation of pre-historic temperature records shows that global warming is reaching levels not seen for at least 6,000 years.

NASA GISS: NASA News & Feature Releases: Ocean Circulation Shut Down by Melting Glaciers After Last Ice Age

North Atlantic Ocean Circulation System The North Atlantic Ocean circulation system is very sensitive to freshwater inputs. The temperature will continue to rise unless steps are taken.
