Choosing one approach often means placing weight on some aspects e. Teachers can use the tools, either on their own or with their students, to: 1 Analyze and assess teaching practice; 2 Integrate elements of successful teaching into the classroom; 3 Plan a course of action for teacher improvement; 4 Undertake and use new teaching practices and record the results; and 5 Determine the results of new practices and next steps to take. There is increasing interest among implementation researchers in using theories concerning the organizational level because the context of implementation is becoming more widely acknowledged as an important influence on implementation outcomes.
