## Cold Wind Blowing (2020)

All you have to do is survive the 2 minutes or whatever it is, you don't have to kill them, just be alive for that long inside the circle not all in one go, so if you survive 10 seconds each time, it's 20 trips.

### Why Does Wind Blow?

And the bigger the difference between the pressures, the faster the air will move from the high to the low pressure. Easiest, if you can teleport near but not into the event, to trench into the event area and just let the timer go down. Want to know more about wind? Because the sun hits different parts of the Earth at different angles, and because Earth has oceans, mountains, and other features, some places are warmer than others.

### Cold Wind Blows Lyrics

That leads us to our first metaphor! I started a new base next to an existing one, and the event dropped on the new one. Those previous ones punishing, insistent, biting are more aggressive and generally more consistent. Washington State Weather: A red warning has been issued as a cold front in southwestern Washington, with a damaging wind blowing.
