## Sports Psychology Guidelines for Tennis Parents

You may also want to use drills to practice basic skills such as controlling the ball and handling the racquet, which are necessary for decent forehand and backhand shots. The following tennis lesson helps you develop the modern forehand technique, which allows you to hit forehands with effortless power while maintaining high consistency of your shots. Quite often clubs provide a mini one-to-one element within the general coaching sessions or as part of their training camps.

## Tennis Coaching Accreditation

To teach the spin, I prefer to explain it as rolling the ball rather than brushing the ball, which is most commonly used.

## Table Tennis Coaching

So many skills are now transferred and learnt through this format.

## How to be a Great Tennis Parent: A Parent's Guide to Tennis on Apple Books

What needs to happen here is that your hips need to start to rotate first, when your arm is starting to drop. This will give you a feel of pulling and the proper lag. Hi Tomaz, I really struggle trying to relax my mind and body because I am so so passionate about the game.

## Tennis Forehand Technique

When you prepare correctly holding the semi-western grip, then the racket face and your non-dominant hand are pointing to the side. The drop is what happens because of the relaxation and not because we do it. These formative sessions are vital in igniting the interest and enthusiasm in the game and keeping the player wanting to come back for more.
