### RSA Stage 3

It updates and replaces the road safety audit procedures for projects guideline Transfund New Zealand, 2004, TFM9.

### Road Safety Audit Guidelines

This document is no longer available from the original publisher, therefore the status is unconfirmed. It is recommended that each road controlling authority embed the requirements for a road safety audit of projects in appropriate policy documents, including but not limited to asset plans, safety management systems and development codes. History This document is also known as the Rural safety audit RSA and replaces the first edition from 1990.

### Guidelines for safety audit of highways. 2nd edition

These Guidelines therefore update previous editions with fresh advice, for example, on matters such as qualifications for Road Safety Auditors and on legal issues within Road Safety Audit. CAPs must be submitted to the FCMSA Service Center within the number of days specified on the failure notification.

### Technical Guidelines

To this end, there needs to be an explicit commitment to safety amongst politicians, top management and line managers in any highway commissioning, design or construction organisation, together with an awareness of the role and benefits of safety audit. IHS has been in business since 1959 and employs more than 3,500 people in 35 locations around the world. NBS is part of RIBA Enterprises Ltd.
