### Lockheed YF

The SR-71 designation has been attributed to lobbying efforts by USAF Chief of Staff General , who preferred the SR Strategic Reconnaissance designation over simply RS Reconnaissance. The Joint Chiefs of Staff, when reviewing the RS-70, emphasized the importance of the strategic reconnaissance mission.

### Blackbirds and Lightnings

This compressibility effect alters the amount of resulting force on the aircraft. Two SR-71s were lost during these missions, one in 1970 and the second aircraft in 1972, both due to mechanical malfunctions.

### Lockheed Martin's SR

However, we still encourage you to take this challenge, and step by step put up a hard work on it because it will definitely be worth that. All this left the SR-71's status uncertain until September 1998, when the USAF called for the funds to be redistributed; the USAF permanently retired it in 1998.

### This one should be on your list: Lockheed SR 71 Blackbird

. Today all but two of the aircraft are available to see in museums.

### Blackbird Airpark

.

### SR

Early project logo While deployed at Okinawa, the SR-71s and their aircrew members gained the nickname as did the A-12s preceding them after an indigenous to Japan, which the Okinawans thought the plane resembled. This gives the engine more fuel efficiency. The SR-71 did more than

take pictures.
