The basis of its new economic policies was liberalization of foreign exchange, foreign trade, and investment systems, and active industrial policies to promote domestic industries.

### Indonesia Overview

But back to the basics: what are Indonesia's strengths that explain structural macroeconomic growth? You have a natural commercial acumen, and an entrepreneurial side that allows you to think on your feet and adapt to the context as it evolves in front of you. . The Indonesian government under the leadership of Joko Widodo who was inaugurated as Indonesia's seventh president in October 2014 has implemented several structural reforms that aim at long-term growth but cause some short-term pain.
