In West Coast NP, Western Cape, two Common Redshanks *Tringa totanus* were present throughout the period from late October 2013, with three there on 30 March and at least four in early June. An African Crane *Crex egregia* was seen at Simbithi Estate, north of Ballito, KwaZulu-Natal, on 19 July—an interesting winter record of a species that is quite unusual in this part of the country.
