ERIC

PowerUp is a free, teacher-friendly website that requires no log-in or registration. Now they know what they got right and wrong and what they have completely forgotten about.

**IDEALS @ Illinois: Another look at the self**

This learning technique will seem harder than just studying the same topic for a longer period, but it definitely is more effective and will help your students to understand better. She plans her lesson by dividing it into three sections: before reading, during reading, and after reading.

**IDEALS @ Illinois: Another look at the self**

It will strengthen their understanding even more. The instructive animation: Helping students build connections between words and pictures in multimedia learning. Then, let them take the words for their class materials and let them draw their own image based on those words.

But when all the tickets are flying out the door and the festival gets closer, the tickets will cost more. Raya's lesson plan for her fourth grade class provides a good example of how self-questioning can be practiced to improve reading comprehension in all content areas.

Self

Review of Educational Research, 55, 227-268. Well, the key is consistent short study sessions over time. Model for your students varied ways to pose anticipatory questions before reading, self-monitoring questions during reading, and assessing for understanding questions after reading.

## **ERIC**

So why should this help them with learning? Do I understand what I am reading? Then, they go down the list and ask themselves questions about how these ideas work and why. How does the image represent the text? To answer inferential questions, readers must think deeply and use context clues to look beyond what is stated outright in the text.

## **IDEALS @ Illinois: Another look at the self**

Then do it the other way around. In prereading, students clarify the purposes related to the study session.
