Arthur Tooth and Sons

II Arthur Tooth was born at Swifts Park, Cranbrook, in Kent, on June 17, 1839, and was educated at Tonbridge School and Trinity College, Cambridge.

Arthur's Tooth

All our holidays and special occasions are marked with books for the Grands. Records of a Paris subsidiary of the firm are not represented in this collection. His unique works, which caused a scandal in the 1940s, are figures and landscapes which are sympathetically characterised by the organic substances of their creation.

Arthur's Tooth (episode)

He was in 1863 to a title at St Mary-the-Less, , but he spent only a year there because his clashed with that of his. He lived for a further 52 years, but was never again given charge of a parish. By this time all the beautiful and expensive ornaments of the church which had been there during Father Tooth's vicariate had been removed by order of the Chancellor's Court, including even cross and candlesticks on the High Altar.

Arthur's Loose Tooth by Lillian Hoban

In the book, everyone but Arthur played and only Arthur left to play softball. Arthur's Tooth has Arthur in another pickle yet again.
