Chapter 5 Answers

1. Mollie is vain, and materialistic. In chapter 2, when she meets and Mollie works less and less. Eventually, she discovers that Mollie is being pulled off Animal Farm by one of Pilkington's men, who eventually was her husband. Mollie disappears, and the others reported her whereabouts as a pig, getting one of the things that she always wanted. I was not surprised by Mollie's disappearance because from the very beginning of the book, we get hints that she wasn't going to last long in the revolution.
2. I think Snowball is a better leader. He had the potential to be the rebellion going. Snowball showed lots of confidence to a great leader. He was a good speaker and leader. He gave constructive criticism and was a role model to the other animals. On Sundays when the animals had their meetings Snowball would give great speeches and make propaganda to win to make the Animal Farm a better place. However, Napoleon eventually decided to control all future meetings and make his own decisions without consulting. If animals were up and running, they would more likely be slaughtered by Napoleonic guard dogs.
3. The windmill represents the dream about whether or not to expand communism and it symbolizes the pigs' manipulation of the other animals for their own gain. The windmill also represents Mollie's attempt to keep the working class to have an assessment and endless projects that they would not have time to think about his political policies.
4. Dogs are symbols for the NKVD, Stalin's deadly and powerful secret police force. Napoleon uses the dogs specifically to be his own little private army. He takes them from their parents as puppies, says that he'll "make himself responsible for their education," and then uses them to maintain from the rest of the farm.
5. "It was noticed that they wagged their tails to him (Snowball) in the same way as the other dogs had been used to do to Mr. Jones." This sentence is already foreshadowing the novel's end - the pigs are going to be just as bad as the humans.
6. Old Major is dead so parallel around during the summer. It represents what the animals have overcome in battle, this being the reason why Old Major helped them succeed through his wisdom. Around the time of the rebellion, Old Major is still reminding the animals of what they have overcome, which includes how they lost in battle to get this far, and where the idea of communism originally came from.
7. Propaganda is giving out biased or misleading information to promote a particular point. Currently, used in political strategies. In the Russian revolution Stalin was known for his use of political propaganda to promote himself as a bold and strong leader to his people. In Animal Farm propaganda is carried out verbally in slogans or speeches. It made the animals believe they were working for a better future and made them feel united with a common enemy.
