ASEAN must step up its role in Myanmar crisis

However, arguably, ASEAN has not been able to achieve what is expected from it, and one question appears strongly in minds, and that is, whether ASEAN has any potential to play a fundamental role in ensuring regional security in Southeast Asia. Despite these areas of contention, ASEAN's members see a continued active involvement by the US as a central factor in the maintenance of regional security. She also stressed her support for Malaysian government initiatives in, as well defending the sovereignty of Sabah as part of the Malaysian federation and said that any suggestions otherwise are mere wild, unfounded and malicious allegations.

Sabah: Malaysia's Or Philippines'?

ASEAN also faces a difficult test in relation to the expectations that have now been developed that it can alleviate the situation of political confrontation in Cambodia.

However, enlargement seems likely to make cohesion and decision-making in ASEAN more difficult.

Sabah: Malaysia's Or Philippines'?

The Hun Sen—Sihanouk meetings acted as a prelude to one of the most significant diplomatic moves that ASEAN initiated. The polarisation over the conflicting trends that were emerging within Southeast Asia at this time were to influence the ASEAN too—concern over communist insurgency was reflected in the policy of each state as well as their collective approach.

Sabah: Malaysia's Or Philippines'?

Such backdoor support allowed the Moro rebels to thrive and disrupt the Philippine security architecture. A key question for ASEAN in the next several years, however, will clearly be whether Burma's acceptance within the association is accompanied by some discernible movement towards political liberalisation and dialogue. First, the paper briefly presents the history of the Sabah dispute and a physical map of the territory.
