France in the Middle Ages

French losses in the first phase of the conflict 1337—60 were partly reversed in the second 1369—96 ; but 's shattering victory at the in 1415 against a France now bitterly divided between rival Armagnac and Burgundian factions of the royal house was to lead to his son 's recognition as king in Paris seven years later under the 1420 , reducing Valois rule to the lands south of the River Valley. Henry III and Louis IX then started a long contest for who was the most faithful; this evolved to the point that none ever arrived on time to the Parlement, which was then allowed to debate in their absence. This is in part because of the numerous subjects encompassed by this long period of time, and in part because of the chronological sub-eras within the era.
