## Hair and Beauty Industry Authority

COSHH in Hairdressing: Asthma When you come into contact with something that irritates your lungs, known as a trigger or respiratory sensitiser, your airways become narrow, tight and inflamed. By utilising your own internal salon educators and the of your professional product suppliers complimented by other external providers you offer complete and on going training for all of your team. It should take no more than 12 months to complete the units in each year.

## Hairdressing Training

Training manual is one of the precious business assets and must be prepared carefully with essential details and information to make everything clear and easy to understand for employees.

## (EN) (PDF) Hairdressing Training Manual

By investing your resources into training you are developing hairdressers whom you know have been trained to a high level both from a technical and service viewpoint and will therefore reinforce the culture of your company. To find all the resource requirements, download the qualification handbook from the centre documents section.
