## The Humber Estuary, Eastern England: Strategic planning of flood defences and habitats

You can subscribe to receive our stakeholder newsletter by emailing the Humber team If you're a farmer or landowner you can subscribe to receive our Humber Landowner Newsletter using the email above.

## Humber Energy Strategy encourages communities big and small to take advantage of living on the Energy Estuary » Humber LEP

For which castle are the following statements true? The Humber Estuary Shoreline Management Plan provides a long-term strategy for investment in sustainable defences to reduce the risk to people and property from flooding in part of Eastern England.

## Humber Estuary Development Conference

People who lived in towns on opposite banks a mile apart started crossing the river — a journey that previously might as well have been to the moon. You can also invite any other attendee to video chat, direct message. Built Environment Networking are collaborating with Humber LEP, Marketing Humber and the University of Hull to deliver this conference where delegates will be privy to details of over £2bn worth of major projects that will regenerate and revitalise Hull and North East Lincolnshire.

## Humber 2100+

The area consists of critical road, rail and pipeline infrastructure and is an important industrial area and trade gateway with an average of 40,000 ship movements per year. Yorkshire Water — Lee Pitcher, Head of Resilience and Partnerships YW and General Manager LWW Yorkshire Water are extremely active in the development realm across four counties. Industry on the Humber Estuary includes chemical works, oil refineries and power stations, with most of this activity located on the south bank of the middle estuary and around Hull on the north bank.

## The Humber Estuary, Interreg VB North Sea Region Programme

A thriving port industry The Humber Estuary is one of the most important estuaries in the UK for commerce, with an expanding port complex and extensive bank-side industries.
