Illicit Drug Use in the United States

The substance of several of the Katzenbach Commission's recommendations addressed both the demand and supply of drugs: 1 Substantially increase the enforcement staffs of FBN and the Bureau of Customs; 2 Permit courts and correctional authorities to deal flexibly with violators of the drug laws; 3 Undertake research to develop a sound and effective framework of regulatory and criminal laws relating to dangerous drugs; and 4 The National Institute of Mental Health should develop a core of educational and informational materials relating to drugs. Chapter IV Part 1: Federal Drug Strategy. The technical papers of the second report include studies on patterns and consequences of drug use, social responses to drug use, the legal system and drug control, and treatment and rehabilitation.

The federal response to drug abuse: 1976

Under the Wheeler-Lea Act, the Federal Trade Commission is charged with overseeing advertising associated with products otherwise regulated by FDA. The ultimate result would be either the disappearance of community drug and alcohol education programs or a reversion to some of the

futile and dangerous efforts of the past. Although the total number estimated at 150 is not large, concentration at one place has been assumed to be justification for establishing a pilot treatment and rehabilitation clinic at the nearby Government Chamla Hospital.
