Fine

A temporal perspective on coarse woody debris, carbon sequestering, and aquatic habitat in riparian ecosystems. Enhancing Survivability of All-Electric Warships through Implementation of Effective Topologies into the Integrated Power systems, with S. Global sensitivity analysis for the Rothermel model based on high-dimensional model representation, with Y.

## IHRMP Research Publications

In total, 48 wild species were photographed in the Core area vs. Sponsored by ASABE, Portland Convention Center, Portland, OR. Mihalef, Proceedings of the 3rd international conference on Computational Fluid Dynamics, Toronto, Canada, July 2004.

## IHRMP Research Publications

Aspen groves are generally moister than the surrounding pine forest matrix, and while high-severity fire generally killed all affected pines, it rarely killed all aspen individuals in a grove. The Columbia Blacktail — Ghost of the West. Lightning and its Impacts over the Mackenzie Basin in 1994-95.

## MAGS: Conference & Symposium Proceedings / Démarches De Conférence Et De Colloque

In this study, we evaluate habitat characteristics for this species and identify potential habitat management strategies to improve habitat quality.

## Presentations

. January 2020 We develop a tool for spatial management of seafloor ecosystems.
