Panama Canal expansion project

To ensure the availability of Panamanian labor necessary for the third set of locks project and its connected activities, the ACP and public and private authorities worked jointly to train the required workforce, with sufficient lead time, so that it had the necessary competencies, capabilities, and certifications.

Panama Canal

These interviews have been edited for clarity and brevity. The engineering, technical, medical, and scientific challenges were incredible, first having to get disease under control and then figure out whether it should be a sea-level or a lock canal.
