Further education and training a real alternative to higher education

While the option can often be overlooked, particularly by school-leavers and their parents, the number actually engaged in further education is substantial. This emphasis on the management of non-communicable disease was reflected in nursing programmes, which currently provide very little, if any training on infectious disease management Ward, 2011.

Becoming a nurse

Tags: , , The nursing educator of today has at their disposal a veritable goldmine of techniques, curricula, models, and simulators as well as other modern technological advances which make it possible to teach a class and impart clinical knowledge from thousands of miles away.

Northern Ireland Future Nurse Future Midwife Implementation

Education for APRNs in Hong Kong is at the postgraduate level. From September 2018 a Northern Ireland NI Future Nurse Future Midwife FNFM project structure has been established.

The Future of Nursing and Continuing Education

Nursing Standard; 33: 4, 68—72.
