

The diagram illustrates a catalytic cycle for the polymerization of ethyl acrylate initiated by RhCl_3 . The cycle involves several rhodium complexes and their interactions with ligands and substrates.

- Top Cycle:**
 - RhCl_3 (labeled d^4) is in equilibrium with RhCl_2 (labeled d^5) via a ligand L .
 - RhCl_2 is in equilibrium with RhCl (labeled d^6) via a ligand L .
 - RhCl is in equilibrium with Rh (labeled d^7) via a ligand L .
 - Rh is in equilibrium with RhCl_3 via a ligand L .
- Bottom Cycle:**
 - RhCl_3 (labeled d^4) is in equilibrium with RhCl_2 (labeled d^5) via a ligand L .
 - RhCl_2 is in equilibrium with RhCl (labeled d^6) via a ligand L .
 - RhCl is in equilibrium with Rh (labeled d^7) via a ligand L .
 - Rh is in equilibrium with RhCl_3 via a ligand L .
- Substrate Interactions:**
 - RhCl_3 (labeled d^4) is in equilibrium with RhCl_2 (labeled d^5) via a ligand L .
 - RhCl_2 (labeled d^5) is in equilibrium with RhCl (labeled d^6) via a ligand L .
 - RhCl (labeled d^6) is in equilibrium with Rh (labeled d^7) via a ligand L .
 - Rh (labeled d^7) is in equilibrium with RhCl_3 via a ligand L .

Catalysis -- Congresses
Fundamental research in homogeneous catalysis - [proceedings of the First International Workshop on Fundamental Research in Homogeneous Catalysis held at Santa Flavia, Italy, December 1976]

Microsystems Technology Laboratories

. A variety of profiles were opened up in the sector as these companies have begun to Placement appreciate the analytical and quantitative analysis capability of the IITB students.

Pacon2017 Proceedings [jlk9v02yg545]

. Sponsored Research Projects: While the research and development activities of the The income received from sponsored research and department continue to contribute to national consultancy projects: aerospace programmes, some of the faculty members are also engaged in basic research collaborations with Total Sponsored Research Projects : 61 research groups world over, e. Visweswariah's dedication to academia, revolutionary work in industry and commitment to social causes, IIT Madras and its alumni are proud to confer on him this award.

Fundamental Research in Homogeneous Catalysis

Conclusion REEs in the three samples obtained from the decomposition process of Thai monazite ore were determined by WDXRF. . Kitti Amornraksa Chemical Society of Thailand Asst.
