## Tin

Geochimica et Cosmochimica Acta 73, 2907-2919. Associazione Mineralogica Sarda, Associazione Mineralogica Domusnovas, Gruppo Mineralogico Arburese, Gruppo Mineralogico Paleontologico Piacentino, Gruppo Mineralogico Lombardo et al. Most are low-grade bulk tonnage targets, but some deposits with high-grade cores are potentially amenable to underground mining, such as the MAX 280 Kt 1.

**Stannite: Mineral information, data and localities.**

PhD thesis, University of Tübingen Germany , 116 pp. Edward Stanford London , 168 pp.

**The geology underlying the quest for minerals on Canada's East Coast**

The evolution of geologic thought by scientists from the Geological Survey of Canada, universities and industry is then discussed by Chris Yorath. Neues Jahrbuch für Mineralogie, Abhandlungen 175 2 , 125-151. New data on mineralogy and metallogeny of scarns in the Pitkyaranta ore region.

**Selected bibliography on the geology of Canadian deposits and occurrences of uranium and thorium (Book, 1976) [public-docs.talentcoach.ir]**

Information Circular 2015-08 is a pamphlet describing the distribution, origin, production, and uses of nickel mined in the province. The orogenic zones consist of large tectonic collages that were accreted around the continental nuclei. Constraints on the Genesis of Lode-style Tin Mineralization: Evidence from the San Rafael Tin-copper Deposit, Peru Doctoral dissertation, McGill University.
