Theology After Reading: Christian Imagination and the Power of Fiction: Middleton, Darren J. N.: 9781602581586: public-docs.talentcoach.ir: Books

Jennings makes the case that the ethnic prejudice against Jews that was rooted in supersessionism and was strongly present throughout the middle ages, gave theological cover for a different type of ethnic superiority that gradually developed into the concept of race and the racial hierarchies that undergirded colonialism, race-based slavery and White supremacy. I read it for my Theology of Race course under Dr. Modern Poems on the Bible : An Anthology.

Holmes opens her heart to her sons and her readers, exhorting us to better love and understand one another within the challenging social, political, and religious landscapes that we occupy. May be very minimal identifying marks on the inside cover. The narrative is mired with complex vocabulary that while understandable to academics will leave most regularly intelligent readers shutting it in frustration.

The Christian Imagination: Theology and the Origins of Race by Willie James Jennings

Jennings is inviting the reader to reconstruct our Christian Imagination in a way that rejects supersessionism, embraces the full humanity of all and the sibling relationship to all people in and outside of the church, and to reattach ourselves to the land and sustainable human sized practices. The Acts commentary is much less academic and I think would make for a good bible study, or as I used it, personal devotional reading. Even so, we do not entirely leave the world of reality and judgment.
