It is especially useful for its biographies and critiques of foremost Japanese sociologists and for the light it sheds on the development of sociology as a discipline in Japan. The Ryūkyūans, whose homeland consists of about sixty islands, are believed to have become culturally distinct about 2,000 years ago. This state of affairs would continue until 1873; this long period of two hundred and thirty years would be known as the period of hiding, and the faithful who lived through this period would be known as underground Kirishitan.
