Identification Tips

European Starling 34% Introduced to North America in the late 1800's, they crossed the continent, often to the detriment of native cavity-nesting birds.

Birds of Illinois and the Midwest United States

Food and feeder preference: They love sunflower seeds and tube feeders. There are so many different sounds to listen to, some very distinctive. I also provide a photo and description section to help you with Illinois bird identification of the most common birds native to Illinois backyards.

Details

Many swifts have very long, swept-back wings which resemble a crescent or boomerang. Black cap covers eyes, crosses chin and ends at yellow nape. Song Sparrow 30% Melospiza melodia A common bird, but variable, and similar to many other streaked brown sparrows.

**The birds of Illinois and Wisconsin :
Cory, Charles B. (Charles Barney),
1857**

Direct flight with strong fast wing beats. In fact, these songbirds can be year round residents throughout the United States if food supplies are plentiful and snow cover is not too deep. Two species have been recorded in Illinois.

Illinois Birds: Pictures And Bird

Other hotspots are very rarely visited by birders. Swift direct flight on rapidly beating wings. It has black-spotted and streaked upperparts, slightly scaled underparts, a white eye ring, black bill and yellow legs.

Common backyard birds in Wisconsin (lists, photos, ID)

Photo by Greg Gillson 15. Females dull olive, wings and tail browner.
