Assessment of Science and Technology Indicators and the Need for Science and Technological Development in Sudan

Not one single Muslim scholar, as can be found by any reader consulting the works of the likes of al-Zahrawi, al-Biruni, Al-Bitruji, or any other, denied the paternity or authorship of any of their predecessors whether it be Ptolemy, Galen, or Aristotle; or their Indian-Chinese counterparts.

role of Egyptian State Awards in changing researchers' performance in the science and technology sector

Cairo: Economic Research Forum ERF.

Introduction to Muslim Science

These hundreds of works were to serve as the foundations of Western learning.

Introduction to Muslim Science

The genre of the maqama left a rich legacy to modern literary traditions in the Arab world.

Publications

Sarton , in his voluminous Introduction to the History of science shows both the continuity in scientific progress, the crucial importance of the middle ages, and also the decisive Muslim contribution. Shihab-Eldin, The Science and Technology Management.

Publications

It would have, indeed, been impossible for such historians to explain the role of the Middle Ages in the advance of civilisation without referring to the Islamic role. This presentation will explore the trajectories of Islamic heritage percolating in 1960s Iraq, when several artists galvanized refractory materials from premodern paintings and other popular Islamic objects into artworks that actively witnessed and transformed a longue durée of heritable traditions. Oxford University, Oxford, UK, September 1997.

Jāmi‘at al

For new and returning students, we have textbooks to buy, rent or sell and teachers can find books for their classroom in our education store.

public-docs.talentcoach.ir: Books

In: Technological Change and Skill Development in Sudan. During the twentieth-century, Arab artists studying abroad in imperial capitals encountered and responded to historical works from previous Islamic civilizations, including the 1237 Maqamat Al-Hariri in Paris. Lawrence Berkeley Laboratory Report 8142 , 1978.
