However, the treaty itself has signatories worldwide and provides a global scope.

PowerDMS

Most countries require licensed telecommunications operators to provide their networks with Legal Interception gateways and nodes for the interception of communications. Operators of private network infrastructures in the United States have an inherent right to maintain LI capabilities within their own networks unless otherwise prohibited. The goal of this team is to comply with civil and criminal process and provide assistance to federal, state and local law enforcement agencies, attorneys, and customers pursuant to that process.
