Title translated from album caption. It is enough to say that no sensitive boy enjoys being made the butt of ridicule by his school associates because of the supremely and needlessly outlandish character of his habiliments, and the equally outlandish character of his well-known home treatment--a typical stepmother being responsible for both. He ended his navy service as a captain.

calbk

That was the only time I ever went on a journey for the next fifty years without taking blankets, except when I traveled by train, and even then I often found it convenient and comfortable to have some with me. Books and periodicals in the General Collections and in other divisions in the Library, such as the Rare Book and Special Collections Division, are rife with illustrations, which can be studied on their own and in the context of the textual material with which they are presented.
