## Improving Healthcare for Aging Veterans

There are other individuals who require just minimal help. Subjects are assessed at baseline, the completion of the eight weeks of training, six months and one year after the intervention.

## The care of the ageing and chronic sick (1951 edition)

Residents will need to be groomed by having their teeth and hair brushed.

## Care of the Elderly and Chronically Sick

Within the VA healthcare system, Veterans aged 65 and older represent approximately 40% of all ED visits.

## Improving Healthcare for Aging Veterans

In addition, VA is supporting a larger study of this intervention at multiple VA medical centers. Other patients just need a little assistance with these tasks or with other tasks they find difficult as a result of health conditions.

## Improving Healthcare for Aging Veterans

Journal of the American Geriatrics Society. Schubert CC, Myers LJ, Allen K, Counsell SR.
