The heavy design of the wooden table lends itself to the modern minimalist of the room which ties in with the ultra-modern light fixture. Rather than just a sheer wall of stone, the exposed chimney is designed with a central recess for artwork, along with tapered edges on either side, to keep it from appearing too overpowering. Big floor-to-ceiling windows are the finishing touch that allows you to gaze out into a canopy of trees.

200 Beautiful White Kitchen Design Ideas

Perhaps your countertops are light, and your floor is light, and perhaps you want to retain the pure feel that is given by the complementary tones of your white cabinets. Because they have no color of their own, the cabinets will adopt the color of the light bulb.

45 Best White Bedroom Ideas

Even after the window treatments, upholstery, and pillows there was plenty of leftover fabric to be used down the road as seat cushions on new finds, lampshades, and even place mats or a tablecloth.

The versatility of the plain white blank canvas gives you freedom to design the other elements of your kitchen in various styles, and with different colors. If you have a bay window, a painted window seat with a striped seat cover works beautifully. Don't be afraid to add some color to your white bedroom.
