## From brakdak to bafokona (1989 edition)

A Review of South African Squatter Settlements in the Late 1970s. Although documentary evidence seems to point to the fact that beehive-type structures were being built for various reasons throughout most of southern Africa before the Difaqane, with a few notable exceptions these appear to have fallen into general disuse in the country's hinterland by the end of the last century.

The Chinese learned about new scientific instruments from European missionaries. The coastal belt of this region is considered to be predominantly tropical bush and savanna with sour grassveld covering flat-topped plateau spurs and thornveld occupying the flat-floored and enclosed river basins.

[francofrescura.co.za](http://francofrescura.co.za)

It is characterized by short, dense growth of shrubby *Copaifera Mopane* J Kirk. POSTSCRIPT This paper was developed in the context of a course in indigenous architecture which, over the years, has been run at a number of universities.

## From brakdak to bafokona (1989 edition)

Above the 1375m contour, the frequency of frost brings about the change from savanna to grassveld. Water courses are revealed by corridors of trees, mostly consisting of Fever trees *Acacia Xanthophloea* Benth. Cultural Exchanges: Goods, Technology, and Ideas Increasing contact between people led to many exchanges of goods, technology, and ideas.

## From brakdak to bafokona (1989 edition)

SOURVELD TECHNOLOGY This is a relatively small strip of land falling between the Great Fish and the Great Kei rivers east of the Katberg. Thatching is mostly in the smooth style and eaves overhangs are small.

**From brakdak to bafokona (1989 edition)**

The Americas The arrival of Europeans in the Americas had many long-lasting effects. The occurrence of green brick construction cannot be assigned any definite location on a regional basis with the exception perhaps of the timber-impooverished highveld areas.
