It is still more difficult to apply this theory to the idea of barking, which can be imitated by man, being natural to a dog; or to the idea of white, which belongs to some dogs, but also to the clouds, the snow, the lily.

Physical Growth and Development in Newborns and Toddlers

They are found to contain small corpuscles with a network of minute fibrils between them, as shown in figures 1 and 4.

jonathan miller and david pelham

And there is an equal number of periodical publications of single investigators and institutions, and also numerous writings of psychological importance published in philosophical, physiological, psychiatric, pedagogical, criminological, and other journals.

In the Womb (2005), by Toby McDonald and National Geographic Channel

Let us further understand that pain is not only a cutaneous sensation, but also a sensation localized in internal organs; for instance, headache, toothache, colic.

The Facts Of Life by Miller, Jonathan; Pelham, David

How does the sense of smell in man compare with that of animals? This is illustrated by figure 9. A third characteristic of images is their instability, fleetingness. However, this does not seem to be a unique case.
