Increased cost of production interacted badly with increased demand resulting from rapidly rising wages. In 2002, only 52% of Americans between the ages of 18 and 24 voluntarily read books, down from 59% in 1992. The defines the millennial generation as people born between 1981 and 1996, as does the , the , , and major news outlets such as CBS, ABC Australia, The Washington Post, and The Washington Times.

U.S. Energy Information Administration (EIA)

Like other immigrant-friendly countries, such as Canada, the United Kingdom, and the United States, Australia's working-age population is expected to grow till about 2025. People who were unemployed, only had part-time jobs, and students were the most likely to forego sexual experience while those who had higher income were stricter in.

Millennials

Effects of intensifying assortative mating discussed in the previous section will likely be seen in the next generation, as parental income and educational level are positively correlated with children's success. Large anti-globalisation protests led by the left had flared up as trade unionists, environmentalists, debt campaigners and the public united to march against bodies such as the WTO in Seattle, Genoa, Florence and elsewhere.
