MGX by Materialise permanent collection. Collaboration with professors, professionals and colleagues reflect his interests and a willingness to promote a sharing of knowledge in an otherwise competitive environment. Everything leads us to believe that, in the light of complexity and the integration of functions within the various national or regional communities, there is in Europe a general desire to stand back a bit in order better to

understand the order of the questions, or at least a vague need to understand how this physical and mental entity called the land was formed and in what it consists.
