### Department of Heritage Telangana

The dangers associated with the removal of overpainting mean that such serious interventions should only be made when there are important conservation grounds for doing so. . .

### Do you know your renovation and restoration from your preservation and conservation?

In the case of severely deteriorated stained and painted glass, there would be no technical problem with creating an 'as new' version of what the glass may have looked like - an extremely satisfactory solution for the lay public.

### Bibliography: Churches of Old Goa

We Can Take It: A Short History of the CCC.

### Why preserve and restore? Importance of saving historical monuments

Another Day, Another Dollar - The CCC in the Catskills. Old buildings teach us about the history that happened before we were born and promotes the respect for those who lived in different times and different societies. Often there are compromises between preserving appearance, maintaining original design and material properties, and ability to reverse changes.

### Bibliography: Churches of Old Goa

The terms preservation, conservation, and restoration as used in these guidelines are the simple definitions used by Wesley L.

**Do you know your renovation and restoration from your preservation and conservation?**

Ethical standards within the field require that the conservator fully justify interventive actions and carry out documentation before, during, and after the treatment.

**Do you know your renovation and restoration from your preservation and conservation?**

These take the form of. Moisture can cause and aggravate not just corrosion to the glass, but weathering of paint layers and the corrosion of leadwork.
