Marx's Theory of Capitalism and Its Relevance

The term state capitalism is not used by to describe the public ownership of the means of production.

Roy Porter · English Marxists in dispute · LRB 17 July 1980

From 1956 to the late 1970s, the and their or adherents around the world often described the Soviet Union as state capitalist, essentially using the accepted Marxist definition, albeit on a different basis and in reference to a different span of time from either the Trotskyists or the left-communists.

Capitalism, state formation, and Marxist theory

By an incredible irony of history, Marxian 'socialism' turns out to be in large part the very state capitalism that Marx failed to anticipate in the dialectic of capitalism.

Marxism and the Latest Stage of Capitalism by Paul Mattick

The former focuses on how norms shape identities and interests interest-formation and the latter on how actors pursue the given interests interest-satisfaction. The present organizational architecture is extremely centralistic and all the members of the Congress party are seen as the supine members of a sycophantic entourage, revolving around the singular nucleus of nobility, which has invariably been the Gandhi family. Not a word about the direction of production towards human goals; merely increases in production that already exists, with all its superfluities, waste and preparation for destruction through armaments and production for the sake of production.

Nikolai Bukharin: Marx's Teaching and its Historical Importance

They conclude that China is neither a form of market socialism nor a stable form of capitalism.
