Federal :: National Forest System Land Management Planning

The Forest is comprised of 2,572,463 acres and has about 54 developed campgrounds of which 25 meet the People come to Nevada for a variety of reasons but discovering the delights found in the Toiyabe National Forest is not often one of them. If SCC have not yet been identified, paragraph b 6 requires that, when scoping or effects analysis reveals that a proposed amendment would have substantial adverse impacts to a specific species, or if the proposed amendment would substantially lessen protections for a specific species, the responsible official must determine whether or not that species is a potential SCC.
