This line of thought derives in part from modern expectations that an autobiography should reveal an interior self different from, and even at odds with, the exterior public self.

Interpreting the Self

Both authors do much to overturn such conceptions, Lutfi argues for the relevance of dreams to understanding medieval Islamic societies, while Kihana-Smilansky highlights the personal and autobiographical significance of dreams in medieval dream diaries, specifically with reference to conversion narratives and spiritual transformations. He withdrew from the world to live the life of an ascetic but eventually, years later, returned to his post and wrote his autobiography as a guide to other seekers. The organizing structure of al-Suyūṭī's text, however, in no way impedes the expression of his personality; no reader could leave this work with any doubt about al-Suyūṭī's vision of himself as a unique individual or the sheer force of his at times overweening personality. That is to say that we are not singling out any one culture for condemnation. It asserts itself only in recent centuries and only on a small part of the map of the world.
