NHS England » National Maternity Review

Klein, MD, CCFP, FAAP Neonatal-Perinatal , Vancouver, BC; Guy Paul Gagné, MD, FRCSC, FSOGC, LaSalle, Que. Maternity care enables all women and their families to make informed and timely choices in accordance with their individual needs.

The best start: maternity and neonatal care plan executive summary

Research agenda The above studies, with the exception of the New Zealand data, 5 are small in size. Evidence from New Zealand's regionalised perinatal system. In addition there will be workshops, focus groups and on line opportunities.

The best start: maternity and neonatal care plan executive summary

Clinical decisions about medical intervention should be informed by this understanding. Risk management Risk can never be completely avoided.

National Strategic Approach to Maternity Services

Articles that were included were well-constructed retrospective or cohort studies and relevant to the questions postulated below. Findings A national Core Competencies and Educational Framework for Primary Maternity Services in Australia was developed through an iterative process with a range of key stakeholders.

Maternity

Before designing a NSAMS we want to hear from interested stakeholders on what you believe works well and what needs improvement.

National Strategic Approach to Maternity Services

These competencies recognise the interdisciplinary nature of maternity care in Australia where care is provided by general practitioners, obstetricians and midwives as well as other professionals.

NHS England » National Maternity Review

There were no relevant randomized controlled trials. The Review This Strategic Review of Maternity and Neonatal Services in Scotland was announced by the Minister for Public Health in early 2015.

NHS England » National Maternity Review

The views of staff Staff described positive views and experiences, but also challenges in providing care in the current system.
