The History of Southampton timeline

The main blitz, a series of sustained nighttime raids, started on 23 November 1940. It stretched as far as Six Dials to the North, and to Hoglands in the West. This, along with the presence of a royal mint and the 7th century burials point to the town being established by a central authority, in this case royalty as opposed to the Church.

Exploring Southampton: The Anglo

Reference to modern maps show to be 25 miles 40 km from. The new town was called Hamwic or Hamtun.

Saxon Wharf

New docks for ships were built in the years 1890-1911.

History of Southampton

In fact Archaeologist Martin Biddle believes that the function of Hamwic was not intended as a standalone center of trade, but complimentary to the royal and of Winchester. The Isle of Wight became a full in 1974.

The History of Southampton timeline

In 1866, a branch line extended the railway over the River Itchen at , passing through and to. From the 1840s there were horse-drawn buses in Southampton and from 1879 horse-drawn trams. In 2020 the population of Southampton was 251,000.

The History of Southampton timeline

The nearby Cattle Market was also well served by the railway.

Exploring Southampton: The Anglo

The Illustrated history of Southampton's Suburbs. That plan was tested in May 1944, during Operation Fabius, with troops that passed through Southampton rehearsing their landings at , and After Southampton continued to work at full capacity to re-supply the Allied Forces on mainland Europe. By , that figure had increased to 53,750 troops and 7070 vehicles, aided by the construction of additional facilities specifically with in mind.

History of Hampshire

From 1782 they provided 150 oil lamps to light some of the streets. The first exhibition was from German artist. It was a large and important port.
