Occupational Therapy Interventions for Adults Living With Serious Mental Illness

At discharge, Rosa demonstrated improvements in planning and organization, especially managing her own daily schedule.

occupational therapy and guidelines

Source: Royal College of Occupational Therapists Published by Royal College of Occupational Therapists, 01 August 2017 This publication provides specific evidence-based recommendations which describe the best and most effective practice for occupational therapy for high-risk infants in neonatal and early. This study provides but one example of the creative possibilities for promoting health, wellness, and quality of life through the use of everyday activities as intervention by occupational therapy practitioners.
