**'Phags pa Bzan po spyod pa'i smon lam gyi rgya cher 'grel pa 'phags mchog mams kyi gsañ ba'i mdzod ces bya ba bzugs so.**

Most of the island of Taiwan consists of mountainous terrain, and there are almost no level plains.

## 8 Fun Forbidden City Facts That You Should Know

The Palace Museum will adjust the palace's opening hours in accordance with weather conditions to protect the safety of its cultural relics, the statement said.

**'Phags pa Bzan po spyod pa'i smon lam gyi rgya cher 'grel pa 'phags mchog mams kyi gsañ ba'i mdzod ces bya ba bzugs so.**

It was listed as a World Heritage Site in 1987 and is the largest, best-preserved ancient timber-built palace complex in the world. However in ancient Chinese architecture, one room refers to a square space among four pillars in a hall and it is impossible to have a half room among four pillars. Many gates are decorated with 9 rows of doornails.

## Shenyang Imperial Palace (Gu Gong)

A number of temples and shrines were scattered throughout the Inner Court, including that of or Lamaism. The palaces were the residences of widowed consorts of previous emperors.

## Maine comprehensive outdoor recreation plan

The Museum's collection includes some 30,000 pieces.

## Forbidden City

Find it as the centerpiece of the Former Imperial City, right in the geographic middle point of City Center.
