Queen's Gambit Accepted Traps [Win Quickly]

With enough pressure, from enough pieces, this e5 pawn can fall. So in many cases black is happy to return the pawn. Na5 {Black is under pressure, but this is a mistake that loses immediately.

Queens Gambit Accepted

Black takes the c4 pawn and gives it back immediately, all in order to free the pieces and achieve easier development, instead of having to defend the pawn on d5 which obstructs his or her pieces.

Queen's Gambit Accepted Traps [Win Quickly]

In the Queens Gambit Accepted QGA Black gives up the center and captures the offered c-pawn 2...dxc.

Queen's Gambit Accepted Traps [Win Quickly]

So black normally tries to remove the defender of this pawn with his bishop.

Also, be sure to read:. This time with the white pieces. After the moves pawn to 1.

Queen's Gambit Accepted Chess Opening: For Starters

This is not learning opening theory - this is your anti-surprise, beginner's opening preparation, and will give you a starting point to figuring out what you like without getting smeared off the board. O-O Be6 {This move seems strange at first sight, but is actually good. Black wants to protect his central pawn, but leaves the white squares undefended and also falls further behind in development.

Queen's Gambit Accepted: Rich In Winning Opportunities

Place Dark Squared Bishop on Long Diagonal Black should also place his bishop on b7 so it controls the long a8-h1 diagonal. White will usually follow 8. When Black does this, White should move his Bishop to g4.
